Comments 1. Shotton F.W. 1952. Proc. Coventry District Nat. Hist. & Scientific Soc. II. No. 6, 177-9. "in the possession of a local family for about 60 years. With a piece of steel it had in the past been used as a "strike-a-light". The cell bears no obvious evidence for this, except for slight wear & damage on poll, & a stain suggesting prolonged contact with an iron object on the front face.
