Comments 1. original wooden handled a 19th C cast of same size both in B.M. Wood seems preserved with wax, it is slightly smaller than cast. Cast is not very accurate in detail, but its general appearance looks good. In one or 2 places, it seems to show wood which is missing on the original. The hafting hole was clearly cut specially to fit this axe blade.

Handle = POA 190/7. Cast has no registration. Handle drawn ^{on} ~~of~~ large sheet.
