Comments 1. CORBABL: 5.00.

2. This may be an erratic piece of stone. Whole of back face is spotted with a white weathering crust, & at butt end on area about 5 x 3 cm. preserved the original pitted stone surface. It looks as if the piece has been pecked rather than flaked, & ground mainly only at blade.

3. found in a garden 24. 27. 355
